To Whom It May Concern,

This is a short letter to serve as a reference for Tahsha Schabler. Tahsha was a student teacher in her professional semester two in my grade 7 class at Wilson Middle School. Her teaching assignment consisted of teaching: science 7 (her major), P.E. 7, DPA 7, math 7, and numeracy.

During her placement Tahsha taught most of a unit in science called Structures and Forces. Tahsha did an excellent job planning her science unit and lesson plans. Her ability to come up with detailed and engaging lessons is a real strength of hers.

Tahsha is competent and an effective classroom teacher. She finds ways to connect with individual students as well as connect with the class as a whole. Her fun, personable attitude will serve her well in her future teaching career.

Throughout her placement, Tahsha worked as a team player and demonstrated a professional attitude. She did a great job on her science unit and also did very well teaching other classes outside of her major.

Sincerely,

Ryan Seifert

Teacher

Wilson Middle School
